**STUDENT INVOLVEMENT IN SPONSORED RESEARCH**

*Applicable to Four-Year Institutions – Measured for Fall 1999*

**Due August 1, 2000**

According to Section 59-101-350, the Commission is responsible for collecting “the percent of graduate and upper division undergraduate students participating in sponsored research programs” from four-year institutions to be included in the annual report to the General Assembly.

The numbers included here should reflect the graduate and upper division undergraduate students who participate in sponsored research programs. Each institution that receives research dollars generated by external funding (sponsored research) should report the number of students who benefit from these dollars.

The CHE will calculate the percentage using these data and headcount enrollment data from the Fall 1999 IPEDS Enrollment Forms.

	<b>Number of Students Participating in Sponsored Research</b> (Exclude first professional students)
<b>Upper Division, Undergraduate Students</b>	48
